VIRTUAL Attendees: Traci Parker, Tse' Yaato' High School President

I. **OPENING ITEMS**

President Cheryl Mango-Paget called the meeting to order at 9:15 am

II. **DISCUSSION ITEMS**

A. Introduce proposed Instructional Time Model (ITM):

Dave Dirksen, District Superintendent, explained this is the second of 2 public hearings to provide an opportunity for the public to learn about the ITM for the coming school year. The ITM allows school districts to continue schooling on a virtual basis if they need to close due to a COVID outbreak. This coming school year, the schools will be able to go to virtual time for up to 40% of the time. This is an action item on the board meeting agenda today. The state will provide a template for filing the ITM with contact information and district information. And specifying how the ITM will be implemented and how teachers will implement it as well as the procedures for taking attendance. Daily student logins to zoom, canvas and virtual classrooms will be used to track attendance of students.

Ponderosa High School and Tse' Yaato' High School will use the ITM.

Robin Pete, Ponderosa High School principal, asked if a student was released for work time or internship if that would those elements be included in the ITM.

Mr. Dirksen was unsure and said that would be something to be researched and reported back.
